Yes, but only with your knowledge and consent. COMPLIANCE WITH GDPR AND OTHER PRIVACY REGULATIONS

We comply with regulations outlined in the General Data Protection Regulation as well as other regulations, included those detailed below.

California Online Privacy Protection Act (CalOPPA)

CalOPPA is the first state law in the nation to require commercial websites and online services to post a privacy policy. The law's reach stretches well beyond California to require a person or company in the United States (and conceivably the world) that operates websites collecting personally identifiable information from California consumers to post a conspicuous privacy policy on its website stating exactly the information being collected and those individuals with whom it is being shared, and to comply with this policy. - See more at: <http://consumercal.org/california-online-privacy-protection-act-caloppa/#sthash.0FdRbT51.dpuf>

According to CalOPPA we agree to the following:

Users can visit our site anonymously.

Our Privacy Policy is accessible through a link on our homepage and elsewhere on our website.

Users will be notified of any privacy policy changes on our Privacy Policy page.

COPPA (Children Online Privacy Protection Act)

When it comes to the collection of personal information from children under 13, the Children's Online Privacy Protection Act (COPPA) puts parents in control. The Federal Trade Commission, the nation's consumer protection agency, enforces the COPPA Rule, which spells out what operators of websites and online services must do to protect children's privacy and safety online.

We do not specifically market to children under 13.

Fair Information Practices

The Fair Information Practices Principles form the backbone of privacy law in the United States and the concepts they include have played a significant role in the development of data protection laws around the globe. Understanding the Fair Information Practice Principles and how they should be implemented is critical to comply with the various privacy laws that protect personal information.

CAN SPAM Act

The CAN-SPAM Act is a law that sets the rules for commercial email, establishes requirements for commercial messages, gives recipients the right to have emails stopped from being sent to them, and spells out tough penalties for violations.

We collect your email address in order to:

- Send information, respond to inquiries, and/or other requests or questions.
- Market to our mailing list or continue to send emails to our clients after the original transaction has occurred.

To be in accordance with CANSPAM we agree to the following:

- Identify the message as an advertisement in some reasonable way.
- Include the physical address of our business or site headquarters.
